

## **REINAUER TRANSPORTATION COMPANIES**

JULY 2023

### **Health, Safety and Environmental Policy Statement**

*Reinauer Transportation Companies (RTC) is a full service marine transportation company dedicated to providing an efficient and professional service to our clients, a safe healthful workplace for all employees, and an environmental commitment to an incident-free standard of performance.*

#### **The Goals of All RTC Employees:**

 **ZERO INJURIES**

 **ZERO INCIDENTS**

 **ZERO POLLUTION**

*The safety of persons, the vessel, and the environment are to be given the greatest consideration in reaching any decision, or in the undertaking of any operation.*

*A primary responsibility of every Captain (Tugs and Barges) is the safety and well-being of their fellow crewmembers. No Captain may ever be relieved of this responsibility.*

*The safe operation of vessels depends on observation of applicable laws, rules, regulations and established safety procedures for all personnel. While the responsibility for enforcing the aforementioned requirements rest largely with the Captain, it is a matter of concern to all personnel to see they are observed. All shoreside personnel as well share this responsibility.*

**Jason Reinauer, President**
